- 11. Data from the digital week in May 2021 (Students' answers to a questionnaire)

1. Project information

The project focuses on education and social inclusion of refugees and immigrants. The main objective is to exchange good practices as to how we solve both pedagogical challenges as well as challenges in terms of social inclusion for minority students. As a second motive, we want to focus on how ICT can be used to facilitate better learning and social inclusion for minority students. Finally, the project will give participating students intercultural competence and further improve their English skills.

All four participating schools have experience in teaching immigrants and refugees. Our project partners all participated in Erasmus plus KA229 "School Walls", a project exploring inspirational learning environments. During our work in this project it became clear that we had a lot to learn from each other in the way we welcome and teach minority students. Over a period of 20 months, one visit to every participant will be organized. With our four participating schools, this will yield a total of four transnational meetings. These meetings will involve three teachers and three pupils from every school as well as 10 pupils from the school that hosts the visit.

In the transnational meetings the host school will organize lessons and activities for the pupils that highlight and demonstrate how the host school works with education and social inclusion of minority students. Teachers from the visiting schools will observe and interact with the students, but also discuss practises in meetings parallell with the students' lessons. Excursions and other activities that will promote cultural exchange will also be organized by the host school.

We will conduct in-depth interviews with the students that participate in the project. Participating teachers will also be asked to write a short entry in which they reflect on what they have learnt from the project. A digital guide with best practices will be the final product of this project. This guide will be easy to use for all teachers and schools and we will make sure that it is widely circulated through E-twinning and other media. The guide will be discussed and changes to existing practises will be implemented according to the results of the project at all the participating schools.

- Aims of this project?

 1 Exchange good practices from
 - 1. Exchange good practices from our work with students from diverse linguistic and cultural backgrounds.
 - 2. Learn more about our students' experiences as students in "multicultural schools", and use this knowledge to improve our practices.
 - 3. The project will give participating students intercultural competence and further improve their English skills

Outcome

- Originally, the plan was to make a digital guide with best practices, based on our work with the students in the project.
- Now we need to base the outcome mostly on our discussions as teachers, and visits in classrooms during the mobilities.
- Students that participated in C1 part 1, the digital meeting in May have answered some questionaires.
- Participating teachers will be asked to write a short entry in which they reflect on what they have learnt from the project.

2. Transnational meetings

C1 part 1 = C11 (Students): Norway 25th-27th May, 2021

- Digital meeting over three days.
- All students worked in their respective countries
- Collaborated with students from other countries online
- Lesson plans for the diverse classroom prepared by Norwegian teachers

C1 part 2 = C12(Teachers): Norway 30th March - 1st April 2022

- In order to get an overview: Learn about and discuss each country's national framework for working with minority students (i.e extra resources for language classes, introductory courses etc).
- Main objective: Learn from each other on a school level about social inclusion through education.

Questions to consider and discuss during C1 part 2 (C12)

- How do we welcome students from diverse linguistic and cultural backgrounds in the first "crucial" days that they attend our school?
- Which measures do we take to make sure that students with minority backgrounds are socially included in the school community?
- o How do we address diversity in the classroom?
- What kind of emotional and psycho-social support do we offer minority students with traumatic experiences?
- How do we treat minority background as a resource in the classroom?
- O How do we make our students feel proud of their cultural heritage?
- How do we promote cultural understanding and stimulate our students to look for "common ground" and to fight prejudice.

C2: Spain 25th. - 29th. April

Suggested themes

- Develop school communities with room for diversity
- How to prevent conflicts between groups at school
- Adressing migrant students' holistic needs

- How do we prevent conflicts between groups of students with different ethnicities at school?
- o Trans-gender migrants
- Cultural differences between migrants growing up in countries with cultures where women are thought of as inferior. How do we correct this view?
- O How do we deal with extremist views?
- How to keep authority over students who challenge your authority as a teacher?
- How do we deal students that misread girls that dress in a more liberal way?
- Most migrants are young men with little experience with women that dress in a liberal way.

C3: Greece May 9th - May 13th

Suggested themes:

- Language as a key factor for minority students
- How do Teachers' training prepare future teachers for teaching students with diverse linguistic and cultural backgrounds?
- Home-school cooperation
- Learning support in preparatory classes for minority students
- Learning support in mainstream classes

C4: Portugal May 30th to June 3rd 2022

Suggested themes:

- Teaching in a diverse classroom, what is the best approach?
- Concrete examples of lessons that work well in a diverse classroom
- Summing up the project

Agrupamento de Escolas de São João da Talha, Lisbon

3. Language learning

A) Norwegian as a second language - introduction

Short introduction to some laws and regulations

- Pupils attending the primary, lower and upper secondary school, who
 have a mother tongue other than Norwegian have the right to adapted
 education in Norwegian until they are sufficiently proficient in Norwegian
 to follow the normal instruction of the school. (B1+ level or lower)
- If necessary, such pupils are also entitled to mother tongue instruction, bilingual subject teaching, or both. (Not very common in upper secondary school)
- the Education Act, section 3-12: https://lovdata.no/dokument/NLE/lov/1998-07-17-61

The county authority must map what skills the pupils have in Norwegian before it is decided to provide adapted language education. (Section 3-12)

For pupils who have recently arrived, the county authority may organise special educational facilities in separate groups, classes or schools. (These classes are often called "Introduction classes")

Our school – number of students in this group.

Students at FYD according to native language 2020:

	Norwegian	Other languages		Percentage
Men	150	86	236	36,44 %
Women	215	129	344	37,50 %
	365	215	580	37,07 %

Language	Students	Language	Students	La	anguage	Students	Language	Students
Norwegian	365	Filipinian	2	0	romo	2	Tamil	4
Akan	1	French	2	Pa	asto	11	Thai	9
Albanian	2	Fulani	1	Pe	ersian	2	Tigrinia	19
Amhari	3	Greek	1	Po	olish	8	Turkish	8
Arabic	45	Hindi	1	Po	ortuguese	2	German	1
Bangali	1	Chinise	1	R	umanian	2	Ukrainian	2
Bosnian	2	Croatian	1	R	ussian	1	Urdu	1
Bulgarian	1	Kurdish	13	SI	lovakian	1	Vietnamese	2
Dari	7	Latvian	3	So	omali	34	Ujgurisk	1
English	7	Lithuanian	6	S	panish	4	Unknown	1

School year 2021-2022:

95 students who scored B1+ or lower at the test in August 2021.

Finances related to this group of students

- Approx. €70 000 this year to give these students adapted language education

- One lesson a week (45 min) costs € 4000 a year (38 weeks).

B) Norwegian as a second Language at FYV, Practices

- Common European Framework of Reference for Languages: Learning, teaching, assessment (CEFR).
- The student has scored a mark of B1+ or less on their language test
- The student has spent less than six years in the Norwegian school system, measuring from the date that the student sits his or her Norwegian exam
- Students that meet the requirements above, are offered special language training throughout their time at our school, or until they reach a level of proficiency that allows them to learn a the same pace as first language Norwegian speakers
- Those who qualify for special language training are placed in groups in the subject of Norwegian in all the three years that our students spend at our school
- Teaching minority students in smaller groups is clearly easier than teaching them in a group where there are first language speakers of Norwegian as well.
- They are more likely to raise their hand, ask questions and engage with other students orally in Norwegian.
- We spend a lot of time doing excercises that are designed to help our students expand their vocabulary
- Sometimes, we employ a very concrete and tactile approach
- Students are taught

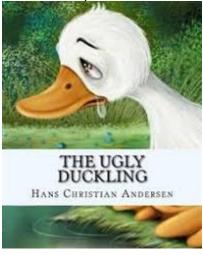

Sentence structure

Word order

Pronunciation

Morphology

- Compare Norwegian with the students' first languages
- It leads to a better understanding of how Norwegian is structured
- The students feel «at home» describing the elements of their mother tongue
- All languages are equally as important and valuable as Norwegian
- Fairytales
- Not too abstract
- Often suitable for dramatization, role play or other oral activities.
- With Norwegian fairytales, but also some German and Danish fairytales, for example H.C. Andersen's fairytales

- Textbooks that are written with their curriculum in mind
- A fairly simple language

- Illustrations and a limited amount of text
- Word lists and explanations are found in the margins. This is very helpful
- Teachers at our school have studied how to teach Norwegian as a second language.
- Our school management aims to give even more of our teachers the chance to study this field

4. Minority advicer and "Fargespill"

Minority adviser

Main tasks

- Contribute to pupils with minority background completing and passing upper secondary education
- Contribute with specific advice and follow-up of individual students
- Forming student and parent networks with a view to preventing forced marriage IMDi:Directorate of Integration and Diversity
 - IMDi has 59 minority advisors who are deployed to upper secondary and secondary schools in all counties in Norway, and at some adult education offices and county counselling centres

«Fargespill» - Caleidoskop

Fargespill - Color play - caleidoskop <u>Fargespill - In English - Fargespill</u> <u>"Fargespill 15 år!" - Kuduro - YouTube</u> Fargespill is an artistic organization that produces stage performances with children and youngsters between the ages of 7 and 25 from all over the world. At a typical Fargespill show, you should expect to experience up to 100 people from over 35 different countries on stage at the same time.

The performances are based on the cultural treasures the participants bring with them, such as traditional songs, dance moves and rhythms from their upbringing or heritage. The musical expressions are merged together in medleys, with Norwegian folk traditions or expressions from modern youth culture. The performances are elevated by professional musicians, choreographers, instructors, sound- and light designers.

5. Social Inclusion in Portugal

MEASURES TO WELCOME STUDENTS FROMDIVERSE LINGUISTIC AND CULTURALBACKGROUNDS

Some facts:

According to Pereira (2004, cited by Rocha, 2006, p.30), "Portugal has become a country of immigrants, being increasingly sought after not only bypopulations from the former Portuguese colonies, butalso by people from Eastern European countries, withparticular emphasis on Ukraine, Moldova and Romania".

At school, we have students from, around, 25 diferent countries

THE SCHOOL PLAYS A KEY ROLE IN THE INTEGRATION OF NEWLY ARRIVEDCHILDREN AND YOUNG PEOPLE INTO PORTUGUESE SOCIETY. THEREFORE, THE MULTICULTURALISM OF PORTUGUESE SOCIETY FORCEDTHE PORTUGUESE EDUCATION SYSTEM TO PAY ATTENTION TO CULTURALDIVERSITY IN SCHOOLS.

THE BASIC LAW OF THE EDUCATIONAL SYSTEM, RECOGNIZES CULTURALDIFFERENCE AND DEFENDS RESPECT FOR DIVERSITY, BUT CONTINUES TOGIVE PRIORITY TO THE TRANSMISSION OF THE DOMINANT CULTURE.

UNTIL 1990, THE INITIATIVES PUT INTO PRACTICE WITH THEAIM OF INTEGRATING IMMIGRANTS WERE NOT RELEVANT.

IN 1991, THE ENTRECULTURAS SECRETARIAT WAS CREATED INTHE MINISTRY OF EDUCATION, WITH THE OBJECTIVE OFCREATING PEDAGOGICAL RESPONSES THAT PROMOTE EQUALOPPORTUNITIES IN ACCESS TO EDUCATION, AS WELL AS THESUCCESS OF ALL STUDENTS.

IN 1996, THE ACIME (HIGH COMMISSIONER FOR IMMIGRATION AND ETHNICMINORITIES) WAS CREATED, WHICH IS AN ORGANIZATION THATPROMOTES DIALOGUE TO IMPROVE THE LIVING CONDITIONS OFIMMIGRANTS AND ETHNIC MINORITIES.

CONSTITUTION OF THE PORTUGUESE REPUBLIC **DECLARES** THAT"EVERYONE HAS THE RIGHT TO EDUCATION WITH A GUARANTEE OF THERIGHT TO EQUAL OPPORTUNITIES FOR ACCESS AND ACADEMIC SUCCESS"(ARTICLE 74. 1) AND "IN CARRYING OUT THE EDUCATION POLICY. UPON THE STATE CHILDREN **ISINCUMBENT** TO: (...) IMMIGRANTSADEQUATE SUPPORT FOR THE REALIZATION OF THE RIGHT TOEDUCATION" (ARTICLE 74, 2, PARAGRAPH J). FURTHER ON, HE SAYS, "THEIRACADEMIC SUCCESS, INTRINSICALLY LINKED TO THEIR MASTERY OF THEPORTUGUESE LANGUAGE. IS THE ESSENTIAL FACTOR IN THIS INTEGRATION

DECREE-LAW N.º 115-A/98 ESTABLISHES THAT SCHOOLS/GROUPS OFSCHOOLS MUST DEVELOP AN EDUCATIONAL PROJECT INACCORDANCE WITH THE REQUIREMENTS AND NEEDS OF THECONTEXT IN WHICH THEY OPERATE, IN ORDER TO CREATECONDITIONS AND RESOURCES THAT ENABLE THE INTEGRATION OFALL STUDENTS, AS WELL AS ACCESS TO THE CURRICULUM.

CURRENTLY, IN THE PORTUGUESE EDUCATIONAL CONTEXT, THERE ISAN ABUNDANT LINGUISTIC AND CULTURAL WEALTH AND AS, INGENERAL, FOREIGN STUDENTS HAVE MORE DIFFICULTIES IN USINGTHE PORTUGUESE LANGUAGE, THE MINISTRY OF EDUCATION HASBEEN DEVELOPING LEGISLATION IN THIS AREA.

SCHOOLS MUST PROVIDE:

- 1 SPECIFIC CURRICULAR ACTIVITIES FOR THE LEARNING OFPORTUGUESE AS A SECOND LANGUAGE TO STUDENTS WHOSEMOTHER TONGUE IS NOT PORTUGUESE.
- 2 EDUCATIONAL SUPPORT, THROUGH STRATEGIES ANDACTIVITIES CARRIED OUT WITHIN THE SCOPE ANDENRICHMENT OF THE CURRICULUM, ALLOWING ALL STUDENTSTO ACQUIRE AND DEVELOP SKILLS TO ACHIEVE ACADEMICSUCCESS.

DUE TO THE INCREASE IN THE NUMBER OF STUDENTS WITHREFUGEE STATUS, THE GOVERNMENT ISSUED A NEW LAW THATALLOWS THESE STUDENTS TO ATTEND ONLY PART OF THECURRICULUM, USING THE REMAINING HOURS FOR LANGUAGELEARNING.

6. Social Inclusion in Greecel

Integration

SUPPORT

- Should begin as soon as possible
- · Take into account the strengths and needs of refugees
- Give access to interpretation
- Intensive language courses
- Support to obtain documents
- Long term support for social economic inclusion

OTHERWISE

- Social exclusion
- · Deterioration in mental health
- Counterproduction

Social inclusion Benefits vs barriers

BENEFITS

- Employment- access to the labour market
- Personal well being/ high self- esteem
- Social interactions and networking

Barriers

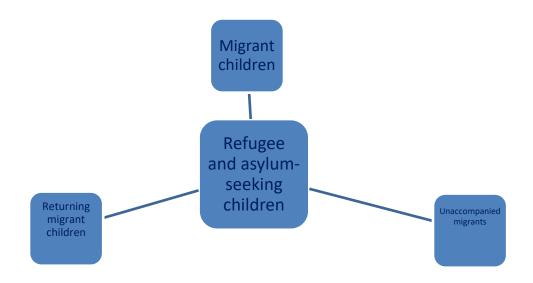

- · Lack of Greek language skills
- Bureaucracy
- · Difficulties in recognition of acquired knowledge
- Atrophy of skills
- High national unemployment rate
- Pandemic Covid-19

Newly Arrived MIGRANTS (NAMS)

According to Public Policy and Management Institute (PPMI, 2013), "Newly Arrived Migrant Students(NAMS) are defined as persons up to 18 years of age, born outside their current country of residence who have arrived in the EU host country during or before the age of compulsory education and enter formal education in their host country."

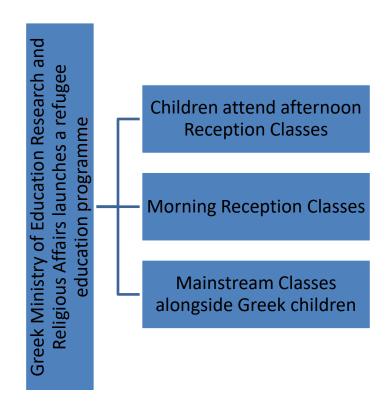

In Greece
NAMS is
defined as α
separate
target group

Institutional arrangements aimed at supporting their language needs

Recognition
of the
fundamental
right to
education for
all children

• Refugee children in the Reception and Identification Centers on the Aegean islands face the biggest challenges regarding access to formal education

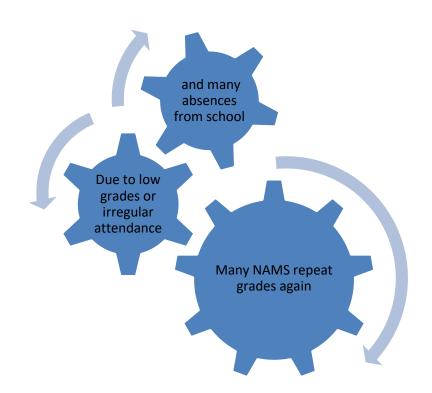

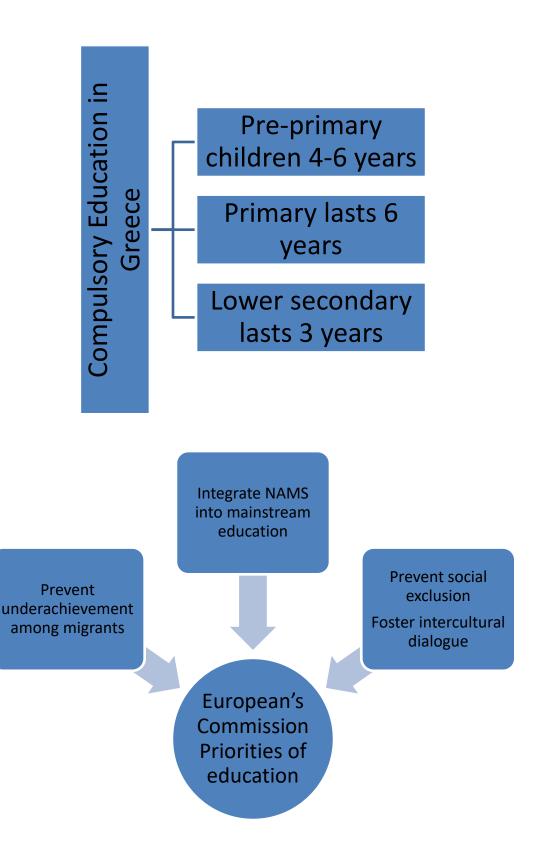

Parallel efforts by UN agencies

And NGOs

 (Non
 Governmetal
 Organization)
 to cover
 urgent
 educational
 needs

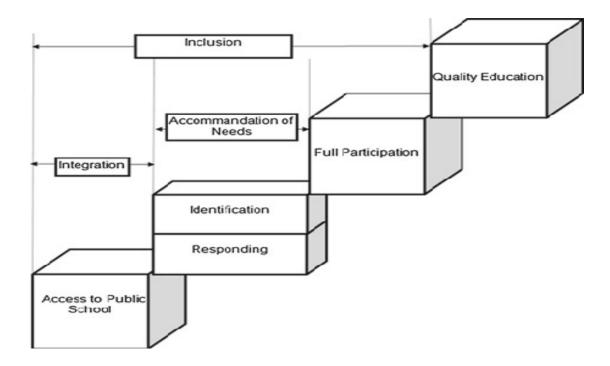

NAMS enroll in all levels of education throughout the year

Greek children enroll at the end of the previous school year

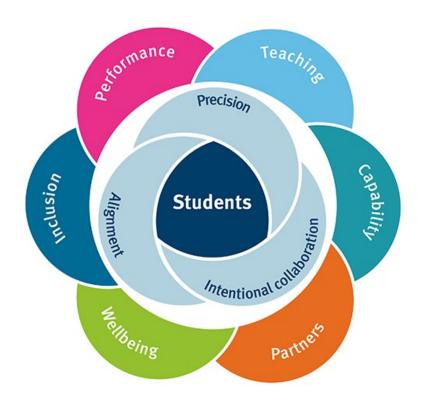

4 STEPS PROCESS FROM ACCESS TO QUALITY EDUCATION

How can teachers support students in our school?

- Welcome process of the students and their families
- Learn about my students
- Get to know the families by having regular meetings
- Remember that students may be under a lot of stress
- Extra Greek lessons
- Integrate the students; cultural and country information into our weekly classroom routines

Our commitment

- Our commitment means that students from all social, cultural, community and family backgrounds and of all identities and all abilities are able to:
- attend their local state school and be welcomed.
- access and participate in a high-quality education and fully engage in the curriculum along-side their similar-aged peers
- learn in a safe and supportive environment, free from bullying, discrimination or harassment.
- achieve academically and socially with reasonable adjustments and supports tailored to meet their learning

Inclusive education classroom

- All students learn together
- Teachers get assistance and support
- Teachers learn to expand their skills
- Valuing other cultures and perspectives
- Honoring the needs of all pupils equally
- · Focus on abilities not disabilities
- Connecting with individual learning styles

INCLUSION COACHES

 Inclusion coaches are available to work with school leadership teams—in collaboration with other regional and state supports—to improve educational outcomes for all students. Inclusion coaches build the confidence and capability to ensure that every student is welcomed at their local school and provided with the same educational opportunities; and that every student has the necessary supports to access, participate and engage in high quality education, free from discrimination.

7. Social Inclusion in Spain

HOW DO WE MANAGE SOCIAL INCLUSION? Some facts about our school (IES El Sobradillo)

765 total students6% international students2% non spanish speaking students.

Alumnado por Nacionalidades

Nacionalidad	Número de alumnos/as
Argentina	1
Brasileña	1
Británica	1

TOTAL	765

LANGUAGE SUPPORT

Goals

- overcoming language barrier.
- improving communicative competence of non-Spanish-speaking students.

Beneficiary

students with little or no command of the Spanish language in its oral or written aspects.

Methodology

- Individualized intervention.
- Small groups of students with different levels.
- Out of regular classes (some hours).

Alternative curriculum

Curriculum: "Spanish as a second language in a school context"

* Remain until they are able to assimilate the established curriculum.

OUR EXPERIENCE

- Last year (covid restrictions).
- Small group (2 students).
- 2 online sessions + 1 face-to-face session a week.
- Methodology:
- Create emotional bonds (teacher/students).
- Gradually and simultaneously introducing basic vocabulary, phonetics and grammar.
- Stimulating students to speak.
- Working on listening & comprehension (watch films in free time).
- Book & online Activities (spanish for foreigners).

International spanish speaking students

Hello, We are Mortalla and Magueye

- From Senegal September 2020.
- Goal: to study.
- Dangerous trip (dinghy).
- Learn spanish: more friends and communicate with other people easely.
- Miss their families and the typical food of their country.
- Happy in Tenerife.

Hello Tenerife

- Hardest part: integrating into the community.
- Miss their families and friends.
- Classmates and teachers great support.

AUTHORITIES' RESOURCES

- Our only resource is the language support.
- We don't get any extra money or resources from our authorities.

ASSESSMENT

- POSITIVES ASPECTS
 - Importance of emotional bonds.
 - Make students life easier (oriented domestic & school life)
- IMPROVEMENTS
 - Spanish for foreing specialist teacher.
 - o Increase number of sessions per week.
 - o Face-to-face sessions.
 - Access to digital resources.
- TEACHERS' OPINION
 - Different life perspective.
 - Value your own life (easier).
 - o Rewarding work.

Tolerance, empathy, solidarity, humanity, sensitivity, laughter and joy, morally well-paid work.

8. Approaches and activities that promote social inclusion in class and at school

Norway

Our approach to language use at FYG school has changed

- 10 years ago, we encouraged our students to speak Norwegian only, and to limit the use of their first language (mother tongue).
- Now, students' are encouraged to use their mother tongue actively in their learning process.
- Students that share the same mother tongue are encouraged to help each other by using their first language.
- Why?

Advantages and challenges regarding this approach in our experience ADVANTAGES

- Students that have the same mother tongue can help each other by explaining texts in Norwegian to each other
- Students feel that their identity and background are more valued because they are allowed to speak their first language in class, and to use it actively in their learning process

CHALLENGES

- The teacher doesn't understand what the students are talking about. The teacher is sidelined.
- Some students that don't speak the same mother tongue as the majority of the students in the class can feel excluded.
- Slows down the process of learning Norwegian?

Conclusion: In my experience, to allow the use of mother tongue in class and at school can promote social inclusion, not discourage it.

Language and identity

- Ask the students to pronounce a few words in their mother tongue in class. They enjoy learning these words from each other.
- The teacher should try to learn a few words of each of the students' languages.
 This shows them respect, and it gives the student the feeling that their background is valued.

- Students that are allowed to use their mother tongue feel that they are allowed to "be themselves" to a larger degree than if they only speak Norwegian.

Teaching English with social inclusion in mind: Translanguaging

- Learning new English words in both Norwegian and the student's mother tongue.
- It is part of the curriculum that students should use all languages they know as a tool to learn English, not just Norwegian.
- https://youtu.be/MDHO0pZyTkE

The British

BENJAMIN ZEPHANIAH

Serves 60 million

Take some Picts, Celts and Silures

And let them settle,

Then overrun them with Roman conquerors.

Remove the Romans after approximately four hundred years.
Add lots of Norman French to some
Angles, Saxons, Jutes and Vikings, then stir vigorously.

Mix some hot Chileans, cool Jamaicans, Dominicans, Trinidadians and <u>Bajans</u> with some Ethiopians, Chinese, <u>Vietnamese</u> and Sudanese.

Then take a blend of Somalians, Sri Lankans, Nigerians And Pakistanis, Combine with some Guyanese And turn up the heat.

THE BRITISH P. 193 IN TARGETS

- 1. Skriv ordene på morsmålet ditt (bruk Lexin)
- 2. Øv! Lær deg ordene
- 3. Bruk listen du får utdelt. Jobb sammen to og to: Du skal forklare ordet uten å bruke selve ordet. Den andre skal finne ut hvilket ord du mener. Kryss av når du har klart ordet og gå videre
- 4. Vi leser diktet The British sammen.

ENGELSK	NORSK	MORSMÅL
Picts	piktere (folkeslag fra	
	Skottland)	
Celts	keltere (folkeslag fra	
	Sentral-Europa) /	
Silures	silurere (folkeslag fra Wales)	
settle	bosette seg	
	overkjøre	
overrun		

Example of translanguaging from Fyllingsdalen vgs

- Task: Learn new words from a poem called "The British" by Benjamin Zephaniah
- Transcript from this video (in Norwegian)

9. Intercultural Education

The way of teaching in Greek Schools

Intercultural Education

Objectives Practices

Modern States

Field of encounter of different cultures

New social reality with a multicultural character

Role of Education

- ✓ solve problems in a society with many cultures and languages
- ✓ tackle problems with educational policies of different approaches

Models of education

- 1. Model of Assimilation
- 2. Model of Integration

Monocultural

- 3. Multicultural Model
- 4. Antiracist Model

Pluralistic

Intercultural Model (Intercultural Education)

Multiculturalism vs Intercultural

- Given situation
- The answer to multiculturalism
- an existing specific social reality and its process of evolution
- a dynamic process of interaction and mutual recognition and cooperation between individuals from different national groups

"what is"

• "what should be"

NOT identical or synonymous

- Multicultural society (given situation)
- The need for social policies and administrative changes in the country
- Changes in education as well

Intercultural Model

Intercultural Model (Intercultural Education)

- ✓ Education ⇒ in line with social developments
- ✓ Ways

 → to the formation of multicultural personalities
- acceptance and respect of the different
- · recognition of the cultural identity of all
- understanding and cooperation

The way of teaching in Greek Schools

Intercultural Education

Objectives

OBJECTIVES OF INTERCULTURAL EDUCATION

According to H. Essinger

- 1. Training for **empathy**
- 2. Solidarity training
- 3. Education for intercultural respect
- 4. Education against the nationalist way of thinking

1. Training for empathy:

- Understanding the problems of "others"
- Cultivation sympathy for them
- Interest in the specificity of their diversity

2. Solidarity training:

- Cultivation of collective consciousness
- Shifting social inequality

All people have the same value

3. Education for intercultural respect

- Our opening to other cultures
- At the same time challenging others to participate in our own culture

4. Education against the nationalistic way of thinking:

- Break the insularity of ethnic origin
- Achieve dialogue and communication between different people

The way of teaching in Greek Schools

Intercultural Education

Practices

PRACTICES OF INTERCULTURAL EDUCATION

- A) "In-training" of children who are in charge of a different cultural and linguistic capital.
- B) Opening up teaching programs to minority cultures
- i) Exempting teaching programs and textbooks from prejudices, stereotypes and enemy images.
- ii) Not only the cultural differences but also the similarities that exist between the peoples.
- **C)** Organization of **joint programs** of cooperation of pupils of different cultural backgrounds in the subjects of History, Literature, Music, etc.
- **D)** Introduction of the **principles** of intercultural education to teacher education and training.

1. Data from the digital week in May 2021 (Students' answers to a questionnaire)

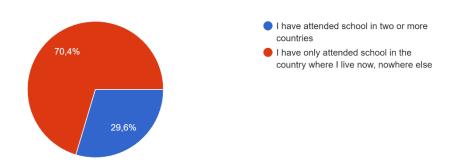

Where do you attend school?

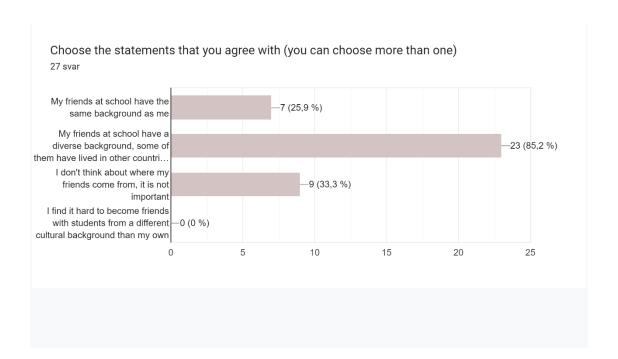

27 svar

Where have you attended school so far?

27 svar

QUESTION 1: Write a little bit about your school history. (Which schools have you attended? How many years did you spend at each school?)

- 1. I go to school in gennadi in Rhodes island for 5 years
- 2. I go to school in Gennadi in Rhodes island for 5 years
- 3. I went to school for 11 years in Peru until 2018, now I go to Fyllingsdalen vgs.
- 4. I went to school in my country for almost 10 years, which is Eritrea. And here in Norway i have been attending language school for 1 and half year. Now i go first year high school.
- 5. I live in lardos(village) but i go to school in gennadi(village)
- 6. I attended the school in my village in elementary school and then for high school I went to another school in Gennadi, where i am still studying at.
- 7. I was 6 years in primary school in gennadi and now I'm 3 years in high school in gennadi
- 8. I was raised in Albania so my first school attendance was obviously there. I spent all my years of kindergarten and elementary school there. Yet we had to move in Greece 4 years ago so now I'm trying to catch up the language as much as I can.
- 9. I have attended two schools in Greece. I used to attend the first 3 grades of elementary school in Athens. Then i moved in gennadi of Rhodes and i have attended the rest three years and the primary school so far.
- 10. I have studied at the Santa Cruz de California school. During the school procedure I have done well. In high school I had some difficulties with some subjects. For the rest, I have done well with the teachers, and the atmosphere is quite pleasant considering other years.
- 11. In the school stage I was in a concerted school in Santa Cruz (Tenerife), the Hogar Escuela a school for nuns until 3rd grade of primary school, then I went to a school in Araya until finishing school, and since 1st of ESO I have been in IES El Sobradillo.
- 12. I were in the same school since 3 years untill 1st of ESO, at that time I left that school and I went to a new one untill i finished ESO. After that, I went to my actual high school.
- 13. Kindergarden 2 years Primary school 6 years High school this year
- 14. I spent about 2 years in my first school in Cuba, when I was like 7, then I started a new one for the third and fourth grade, after that I was selected to go to the Dance school in my province, I studied there for 4 years in a row, until I came to Spain, and started at the Sobradillo, and I remain here
- 15. I have studied in more than 4 schools... But one of the ones I liked the most is the IES the Sobradillo, I've been studying in the for 2 years
- 16. I have attended two escurlas, one is the Ceo Betencourt and Molina, in that school I was from kindergarten to second year of that, and the other in which I have been in the current IES the sobradillo that I have since third of the eso
- 17. From 3 years old to 11 years old I studied in a private school here in Tenerife. Then, at age 12, or Grade 7 I made a change, and I started to study in a public high school. Fortunately, a year ago, I had the opportunity to study part of Grade 10 in Canada. I went there with a scholarship, and it was incredible!

- Now, I'm 16 years old, and I still udying grade 11 at the same high school, les El Sobradillo! I love it!
- 18. I am from Venezuela and I was in two schools, in the first I studied for eleven years and in the second I studied for a year, then I came to Spain and I have been in the school where I study now for four years.

- 21. ive been in school for 12 years now all in Norway
- 22. I went to kindergarten until I was six years old, then I started primary school. I attended to a primary school called "Fridalen", which was actually a hospital during World War II. When I was twelve years old I started at the secondary school "Gimle", where I went for three years. I started at "Fyllingsdalen" high school, when I was sixteen years old, and now I'm in my second year.

QUESTION 2: What do you remember from the first day at the school you are attending now?

- 1. I was nervous but at the same time excited
- 2. I was nervous but at the same time very excited
- 3. I remember it was on summer, it was very warm. We played a game to get to know each other better.
- 4. Getting in the gate of school and meeting all these guys, who are now my classmates
- 5. I was too nervous and happy. But i met new people and why are friends
- 6. I was very excited but at the same time i was a little bit of nervous.
- 7. I was new at school but a lot of kids were too and I was also with my friends so it wasn't so difficult
- 8. I remember I was so nervous and angry I wanted to cry. I used to hate it.
- 9. I remember that I was really excited to see my friends after summer holidays.
- 10. I was very edgy and ashamed due to the fact that i didnt know the older people although! had some older friends who helped me familiarize myself with the lie of the land.
- 11. I was nervous as it was a new experience ans I didn't know if it was going to go well for me, but I am quite comfortable now.
- 12. I remember that some girls in my class came to ask me what my name was, what I liked ... And from then on they were the people who have been with me since 1st year of ESO, being my friends.
- 13. It wasn't a long time ago, so I can remember it easily, I remember i was a bit nervous but also I was exited because I wanted to knew new people.
- 14. It was great, everybody was really nice to me, kind, and they also walked around the school, showed me the classroms, etc

- 15. What comes to mind the most is the good treatment of colleagues and teachers.
- 16. I dont remember anything:)
- 17. I was very nervous because I didn't know anyone, but then in the predentation I got together with two people and they were the ones who helped me in the first days
- 18. I was so nervous because I didn't meet anybody. I tought that make a change would be a good opportunity to meet new friends and live a different experience. I have a really good memory of that day!
- 19. The first day I felt strange because I did not know anyone, I had just arrived in Spain, but after a few days I made new friends and met people.
- 20. We didnt do much we just played games to remember each others names and explored the school that i did not know anybody and i was really happy but nervous. we played name games to get to know eachother and had alot of fun
- 21. Excitement!

QUESTION 3: Name one thing that would have made your first day at the school you are attending now even better

- 1. Making a good impression
- 2. Making a good impression
- 3. That was long ago so i cannot remember so well. but I think I was great otherwise i wouldn't have been truly myself.
- 4. My curiosity of learning
- 5. My outfit!!!!!!
- 6. If i knew more people.
- 7. Nothing it was already perfect
- 8. I don't really know what to recommend, but maybe we should consider treating new kids with more respect and give them a little bit more attention until they start adapting with the place and language.
- 9. i just shouldnt be anxious
- 10. To have met people who are now very important in my life and who would not change for anything.
- 11. The closeness of some students to new people or people with some type of illness.
- 12. I started here because I had a friend inside but the first days he wasn't here so it'd have been easier if he was there the first days.
- 13. I don't know, was really good actually, but I suppose it would've be even better if we could've have dance clases
- 14. Maybe I could have talked to more people who aren't in school anymore to get to know them better.
- 15. Have someone you know at the school
- 16. Maybe being a little less nervous would have been good.

- 17. I don't have to name anything, I'm fine like now.
- 18. Free food
- 19. If it was much warmer outside:)
- 20. Free food and if we could start later in the morning:)
- 21. get to know each other games

QUESTION 4: In your opinion, what can teachers do to make minority students feel included in class and in the school community when they first arrive at their new school?

- 1. Making them feel welcomed and be their friend
- 2. Make them feel welcomed and make them feel included
- 3. I think they have been pretty good at taking care that everyone feels included.
- 4. Wellcoming them with open arms, smile on their face and ready to help them.
- 5. They tell us tips from the old students and how easy is and not to stress:)
- 6. They can talk to them and tell more about the school and its history. Also, they can ask them questions about their personality and make them feel more comfortable with everyone.
- 7. The should introduce them to the rest of the class and make them feel welcome
- 8. In my opinion, all teachers have to do is give as much attention as the students need. Teachers could start with communicating with the person in order to see how open they are to say their opinion. In any case, if the student is nervous to say what he or she thinks, it shouldn't be ignored since it gets harder and harder as the time passes. The teacher can also ask questions that have to do with the class and continuously control his work.
- 9. The teachers should make minority students feel welcomed in the school community. They can do it by discussing privately about their concerns as they might feel uncomfortable sharing with the whole class
- 10. Try to do your best to make new students feel comfortable and happy to study.
- 11. In my opinion, they should be treated as one more person, because being from another country, having another culture and another skin color, they are not different from us.
- 12. Actually, I don't think a minority student could have problems to be included in my class.
- 13. It would be nice if they ask us to make a little introduction about where do we come from, our culture, get to know us better
- 14. Treat them as if they were already studying for a long time at school.
- 15. They could do as a presentation the class but in game mode since it can be used for people who are shy
- 16. I consider that the first thing they should do is to include the student as part of our environment, ask him questions, give him conversation... And the other part is for us, the students, to do. We could invite them to be with us, make plans with them, support them...
- 17. Teachers should give new students more support, and help them to integrate into the group.

- 18. Name games or play other games so that the class can bond with the new student so its easier for them to become friends
- 19. Not be racist
- 20. They can make up fun games so the class/people can get to have fun and good chemistry
- 21. try to show that language does not define us as human beings, but that does not mean that the language or country we come from is less valuable.

QUESTION: What do you think you will learn from this project?

- 1. How to welcome people
- 2. I decided to take part in this project since I find it really fun.I may learn different words from different languages and I will definitely meet new people which is really exiting.
- 3. I will learn how to communicate with people from different countries and schools
- 4. I will learn how to communicate with other people from other countries, and I will also learn absorbing elements about other countries's cilivisation
- 5. Socialize with new people and also make more friends.
- 6. Of course, yes, something is always learned about everything and something or someone new is known.
- 7. Mostly English, but also I'll learn different cultures and many other interesting things
- 8. It would be interesting to know other traditions than mine, I like mixing cultures and having a general knowledge of most of them
- 9. I would learn things from a new culture, make new friends and improve my English.
- 10. I think i will be more socialized,i will learn different cultures,Im going to make new friends
- 11. I think I will learn more English since I need it because I have a low level of English and it is necessary for my future
- 12. This project is undoubtedly a great opportunity. I think I can and I will learn things from another culture, even from other religions. Personally, I will learn to know myself better, new friends, methods... and of course, more of the English language.
- 13. I think learning to express myself better in English and knowing things that I never thought of knowing.
- 14. How to communicate with people from another country
- 15. I will probaby learn to socialise more
- 16. I think I will learn many different things about all the countries, how similar or different our schools are. Many things we learn we do not know in advance.

QUESTION 4: Is there anything else you want to tell the teachers in the project?

- 1. Thanks for this opportunity and I will do my best
- 2. Thanks for this opportunity and I will do my best not for the moment.
- 3. No, but I want to tell them that i am happy that I get to participate in this project.
- 4. no:)
- 5. I am very happy that I am a part of the Erasmus+ team!!!
- 6. Nope
- 7. Not really<3
- 8. Keep doing this wonderful work. We need to have hard-working people as professors.
- 9. Hopefully things year I can participate since the previous year I wanted to participate.
- 10. What I would say to the teachers is that whatever the place where each one of them travels, something is always learned, although there are times that we do not like the place we travel to, we always learn something from even the worst person.
- 11. Not really
- 12. It would be more than awesome for me getting a chance to practice my English, I love it, and sometimes I like just talking to myself in English, and of course the traveling it's really cool also
- 13. Thank you for giving us this opportunity to travel and learn at the same time.
- 14. I'm looking forward to meet the students 😀
- 15. Thank you very much for your effort
- 16. Not really. Just thank you, and congrats for this great work!
- 17. I have nothing to say, I hope we can travel to meet in person.
- 18. God luck
- 19. No
- 20. "I don't think about where my friends come from, it is not important" I don't think about all the different countries my friends are from all the time, but it is an important part of their lives. Differences bring people together
